

# Barcode System

JK Technosoft's Barcode System is a complete end-to-end solution that will automate data collection, where hand recording is neither timely nor cost-effective. The Barcode System tracks data right from receiving the material, inventory management, production & shipment. You can do label printing using handheld scanners and seamlessly integrate to QAD ERP.

## Features:

- ✓ Easy to Implement & Cost Effective.
- ✓ Multiple Barcode Generation - 1D & 2D.
- ✓ Can Print Logo / Images from Barcode Labels.
- ✓ Can print different Sizes of Barcode Labels (4x4,4x2,4x6).
- ✓ Can print & Scan labels using (Ipad/TAB, Barcode Guns,Scanners).
- ✓ Configuration and print of Barcode label through QAD screen.

  
Eliminates Human Error Possibility

  
Time Saving

  
Data Accuracy & Fault Proof

  
Labor Cost & Efficiency

  
Seamless Integration

  
QAD Processes Handled

PDF417 2D Barcode

## Our Platforms

Below are some benefits of the Progress 4GL Language

- ✓ Portability
- ✓ Flexibility
- ✓ Localization
- ✓ Security

The backend of the manufacturing process will be supported by QAD.

- ✓ Item transfer
- ✓ Shipment
- ✓ Backflush
- ✓ Receiving
